# COVID-19 OPERATIONS

Diamond Waters Sailing (DWS) operations are generally compliant with O. Reg. 364/20: RULES FOR AREAS IN STAGE 3, with the major exception that 2 meter physical distancing cannot be maintained while learning to sail aboard our sail training vessel. Review, initial and sign the Waiver to demonstrate understanding and agreement for yourself and your children with the following:

## Before a cruise

When we cruise and learn together, we spend hours in close proximity with each other. To reduce the risk of contracting Covid-19, we ask that you minimize public social interaction for two weeks prior.

## Screening for Covid - 19

- I (and my children) have no fever, sore throat, cough, headache or other flu like symptoms
- I (and my children) have not knowingly been in contact with anybody with Covid-19 symptoms
- I (and my children) will hand sanitize before boarding
- I (and my children) understand that this is a training environment where physical distancing of 2 m cannot be maintained and respiratory protection may be required
- I agree to follow procedures to reduce the risk of contracting and spreading viruses including Covid-19 and cannot hold the owner or any other crew liable if I (and my children) contract any illness.

## During the Cruise

- I (and my children) agree to wear Personal Protective Equipment
  - o Life Jackets – bring your favorite or wear one of ours and sanitize it
  - o Gloves are NOT recommended at any time while handling lines, unless they are fingerless
  - o Masks should be worn if two week prior social isolation was not possible.
- I (and my children), after using the toilet, will use surface sanitizer on the bowl and sink surfaces
- I (and my children) will practice good hygiene at all times

## Blue Pearl is sanitized after each cruise.

- **Hand sanitizer** is a pump bottle sanitizing gel
- **Surface Sanitizer** is 60% alcohol/water and disposable paper towel

I agree to help sanitize all hand holds, cockpit and pilothouse surfaces including: wheel, throttle, controls and switches, seats and cushions with surface sanitizer

- **Line sanitizer** is 60% alcohol/water soaked cloth

I agree to help sanitize the handled portion of lines, sheets and halyards with line sanitizer

- **Personal Floatation Device (PFD) Sanitizer** is 60% alcohol/water and disposable paper towel

---

I agree to sanitize any pfd that I have borrowed from DWS. They will hang to dry for 3 days.

*SAILING FOR A HEALTHY PLANET*
